Sir:

In reply to the February 6, 2004 Restriction Requirement, Applicants hereby elect  
Group I, claims 1-16. The election is made with traverse.

It is respectfully submitted that the subject matter of all claims is sufficiently related  
that a thorough search for the subject matter of any one Group of claims would encompass a  
search for the subject matter of the remaining claims. Thus, it is respectfully submitted that  
the search and examination of the entire application could be made without serious burden.  
See MPEP §803 in which it is stated that "if the search and examination of an entire  
application can be made without serious burden, the examiner must examine it on the merits,  
even though it includes claims to independent or distinct inventions." It is respectfully  
submitted that this policy should apply in the present application in order to avoid unnecessary  
delay and expense to Applicants, and duplicative examination by the Patent Office.

Reconsideration and withdrawal of the Restriction Requirement is respectfully  
requested.

Respectfully submitted,

Mario A. Costantino
